PROFESSIONAL SUMMARY

Chartered Engineer (CEng, UK) and Assistant Professor in Renewable Energy with 12 years of combined academic and industry experience across Oman, the UK, and India. **Research impact: h-index 12, i10-index 14, 620+ citations, 38 peer-reviewed outputs** in Q1/Q2 venues including *Results in Engineering* (IF 9.4), *Alexandria Engineering Journal* (IF 6.2), and *Energies* (IF 3.9). Leads an independent research programme in photovoltaic (PV) system degradation and performance modelling, AI and machine learning (ML)-driven solar and wind energy forecasting, offshore and floating PV, and IoT-based energy monitoring; Principal or Co-Investigator on five competitive grants totalling **USD 134,000**. Currently **Programme Coordinator**, B.Eng. Energy Engineering (Muscat University) and **External Examiner** at Sultan Qaboos University (SQU) and University of Buraimi; featured speaker at **World Engineering Day 2026** (UNESCO/WFEO).

CORE COMPETENCIES & TECHNICAL SKILLS

- Domain Expertise:** PV system design and degradation, offshore and floating PV, hybrid solar-storage systems, smart grid integration, energy transition and net-zero energy systems, 60 GHz mm-wave antenna systems, IoT sensor networks
- Teaching & Pedagogy:** Student-centred curriculum design and development; outcome-based education (OBE); learning outcomes mapping (MLO/PLO/Graduate Attributes); assessment rubric development; blended and hybrid learning via Moodle LMS, MS Teams, and Zoom; undergraduate and postgraduate course delivery; 11 teaching laboratories established across two institutions
- Research Leadership & Grant Management:** Grant proposal writing and management (PI/Co-PI on 5 grants, USD 134,000 total); research mentoring (25+ supervised projects); peer reviewer for TRC Oman grants, Elsevier, Springer, IET, and ICE journals
- Academic Administration & Accreditation:** Programme coordination; ABET Student Outcomes mapping; OAAA accreditation preparation (Standard 6); university committee governance (Quality Management, Research & Innovation, Strategic Planning)
- Programming & Data Analysis:** Python (NumPy, Pandas, Matplotlib, Scikit-learn), MATLAB, R
- Machine Learning / Deep Learning:** TensorFlow, Keras, PyTorch; GRU, LSTM, SARIMAX, Prophet; Scikit-learn pipelines
- PV & Energy Simulation:** PVsyst, PVWatts, SAM (System Advisor Model), ETAP, PSIM
- Antenna & EM Simulation:** ANSYS-HFSS, CST Microwave Studio
- Research & Productivity Tools:** LaTeX, Jupyter Notebook, Git, Mendeley/Zotero, Origin Pro, Microsoft Office Suite
- Languages:** English (Fluent/Professional), Arabic (Basic/Conversational), Telugu (Native), Hindi (Native)

EDUCATION

- Edinburgh Napier University** 2017 – 2023
Doctor of Philosophy (PhD), Electrical Engineering (Photovoltaics) Edinburgh, Scotland, UK
 - Thesis:** Field-Based Degradation Analysis and Performance Modelling of Photovoltaic Systems
 - Investigated soiling, thermal, and spectral degradation mechanisms in arid and semi-arid climates (Oman field sites)
- SRM University** 2011 – 2013
Master of Technology (M.Tech), School of Electrical and Electronics Chennai, India
 - Thesis:** Design and Characterisation of 60 GHz Millimetre-Wave Antenna Systems
 - Supported by DRDO (Government of India) research grant (**USD 43,000**); research focused on 60 GHz millimetre-wave antenna systems for short-range, high-data-rate line-of-sight wireless communications
- Jawaharlal Nehru Technological University (JNTU)** 2007 – 2011
Bachelor of Technology (B.Tech), Electronics and Communication Engineering Anantapur, India
 - Final Year Project:** Design of a Solar-Powered Intelligent Street Lighting System

ACADEMIC EXPERIENCE

• Muscat University

2023 – Present

Assistant Professor in Renewable Energy

Muscat, Sultanate of Oman

◦ Academic Responsibilities

- Teach 8+ courses across the B.Eng. Energy Engineering and MSc Renewable Energy programmes; develop course materials, assessment rubrics, and laboratory manuals for 5+ practical modules
- Supervise 25+ MSc and undergraduate thesis projects on PV systems, renewable energy, and AI-based energy forecasting and optimisation
- Serve as **IET Approved Mentor**, supporting engineering graduates towards Chartered Engineer (CEng) registration
- **Principal Investigator**, AI-Based Smart Weather Station SEED Grant (Muscat University, **USD 14,000**); **Co-Principal Investigator**, Advanced Techno-Economic Analysis of SMR-SOFC Platform SEED Grant (Muscat University, **USD 14,000**)

◦ Program Leadership & Coordination

- **Programme Coordinator, B.Eng. Energy Engineering** — oversees programme administration, academic scheduling, and student progression monitoring; serves as primary liaison between the programme and institutional management.
- **Chair, Curriculum Review Committee, B.Eng. Energy Engineering** — lead systematic review of module learning outcomes (MLOs) against taught content; oversee mapping of MLOs to Programme Learning Outcomes (PLOs) and to institution-defined Graduate Attributes; manage and update the full outcome-to-PLO alignment matrix for all Energy Engineering modules.
- **Contributed to the development of 5 new academic programmes** at Muscat University: BEng Health and Safety; BSc Cyber Security and Forensics; BEng Software Engineering; BSc Artificial Intelligence and Data Science; MSc Educational Technology.

◦ University & College Governance

- **Member, Quality Management Committee** (University-level) — reviewed and shaped institutional policies; led development of the new Programme Curriculum Development Policy.
- **Member, Research and Innovation Committee** (University-level) — evaluate research grant applications submitted by faculty members and postgraduate students, including internal SEED grants; provide funding recommendations to university leadership.
- **Member, Strategic Priority and Operational Plan Committee** (College-level) — contribute to Faculty of Engineering strategic planning and operational development, supporting alignment between departmental activities and institutional objectives.

◦ Accreditation & Quality Assurance

- **Member, OAAA Accreditation Committee** — led preparation for Standard 6 (External Engagement), governing the university's engagement with industry partners, professional bodies, educational providers, alumni networks, and the wider community; produced evidence portfolios and self-assessment reports in support of institutional accreditation.
- **Member, ABET Accreditation Committee** — driving the ABET accreditation process for B.Eng. Energy Engineering; established Student Outcomes (SOs) and systematically mapped SOs to MLOs and PLOs; formal application currently underway.

◦ Infrastructure Development

- Designed and established six teaching and research laboratories from scratch, expanding the practical learning capacity of the Energy Engineering programme:
 - Electrical and Electronic Laboratory 1 & 2
 - Solar Energy Systems Laboratory
 - PVSyst Simulation Laboratory
 - ZWCAD Laboratory
 - MATLAB Computing Laboratory

◦ Alumni Engagement & Community Outreach

- **Alumni Representative, Faculty of Engineering** — coordinate bi-annual alumni engagement sessions to present programme developments (curriculum updates, infrastructure improvements, and research activities); collect structured feedback from alumni on their professional experiences and integrate findings into curriculum enhancement processes.

- **External stakeholder engagement via OAAA Standard 6** — established and maintained relationships with industry partners, professional bodies, and educational providers to ensure the programme remains aligned with employer expectations and sector developments.

• **A'Sharqiyah University**

Lecturer, Electrical and Computer Engineering

2015–2023

Ibra, Sultanate of Oman

◦ **Academic Responsibilities**

- Taught 9+ undergraduate courses: Solar/Renewable Energy, Electrical Circuits I & II, Control Systems, Electronics I & II, Electromagnetic Fields, Instrumentation & Measurements, Digital Systems, and Computer Applications
- Established and supervised 5 teaching laboratories: Digital System Lab, Electronics Labs 1 & 2, Renewable Energy Lab, Electrical Circuits Lab, and Control Systems Lab; developed all associated lab manuals
- Developed comprehensive course materials including handouts, lecture videos, Moodle LMS pages, MS Teams/Zoom sessions, and simulation-based tutorials
- Advised students on study plans and academic progress; provided welfare referrals to Student Affairs for sensitive cases
- Supervised undergraduate research projects and sustained a consistent publication record across the full tenure
- Awarded **Best Teacher Award** and **Active Researcher Award** by the College of Engineering (2019)

◦ **University & Departmental Service**

- **Member, College Research Committee** — evaluated faculty research activities and supported departmental research strategy (2019–2023)
- **Member, University Health and Safety Committee** — shaped university-level H&S policy development and compliance monitoring (2015–2017)
- **Member, University Employment Welfare Committee** — supported academic staff welfare and HR policy initiatives (2017–2019)
- **Member, University-Industry and Community Engagement Committee** — facilitated industry partnerships and community outreach activities (2016–2018)
- **Member, College Quality Audit Committee** — contributed to internal quality review processes and programme evaluation (2015–2016)

◦ **Program Development & Accreditation**

- **Member, BSc Cybersecurity Program Development Committee** — co-designed curriculum for the new BSc Cybersecurity programme (2018–2019); received Quality Audit Appreciation Award (2022)
- Contributed to college-level programme review cycles, OAAA accreditation preparation, and institutional strategic planning

INDUSTRY EXPERIENCE

• **Bayanat Technology / Technosignage**

Technical Lead Engineer

2013–2015

Muscat, Sultanate of Oman

- Led delivery of engineering projects valued cumulatively at over **USD 300,000** across government, banking, and public sector clients
- Managed full project lifecycle: technical design, vendor selection, procurement, installation, and commissioning
- Delivered technical systems integration across digital signage, asset management, and AV platforms; managed client requirements, vendor contracts, and on-site commissioning across multiple concurrent projects
- **Selected Projects:**
 - **Bank Muscat, Sohar** — Designed and deployed an enterprise-grade Digital Signage Solution across banking premises; project delivered on schedule and within budget (**USD 125,000**)
 - **Ithraa – Investment & Export Development Authority of Oman (Government)** — Implemented an enterprise Asset Management Solution using WASP inventory tracking platform and HC1 mobile devices for real-time asset visibility across government facilities (**USD 32,000**)
 - **Multiple Government Ministries** — Deployed Digital Signage Solutions across various government organisations including the Ministry of Housing, Ministry of the Supreme Council, and Ministry of Planning (**USD 55,000**)

RESEARCH INTERESTS

- **Renewable Energy & Photovoltaic Systems:** Field-based PV degradation and soiling analysis, offshore and floating PV, bifacial modules, hybrid solar–storage systems, sustainable energy systems, energy transition, performance modelling under arid and semi-arid climates
- **Artificial Intelligence (AI) and Machine Learning (ML) for Energy Systems:** Short- and medium-term solar and wind power forecasting using GRU, LSTM, SARIMAX, and Prophet models; AI-driven smart weather stations; smart grid optimisation and demand response
- **Internet of Things (IoT) for Energy Systems:** Low-power wireless sensor networks for real-time PV performance monitoring, smart energy management, and grid optimisation
- **Wireless Communications & Antennas:** 60 GHz millimetre-wave antenna design, short-range high-data-rate propagation modelling, indoor/outdoor link budget analysis, MIMO systems

RESEARCH GRANTS & FUNDING TOTAL AS PI/CO-PI: USD 91,000

- **AI-Based Smart Weather Monitoring Station for Renewable Energy Applications** 2025–2026 [USD 14,000]
Muscat University SEED Research Grant | Role: Principal Investigator
 - Developing an AI-powered IoT weather station providing real-time environmental data for PV performance optimisation
- **Advanced Techno-Economic Analysis of an Integrated SMR-SOFC Platform for Low-Carbon Hydrogen and Power Production** 2025–2026 [USD 14,000]
Muscat University SEED Research Grant | Role: Co-Principal Investigator
 - Conducting techno-economic modelling of a hybrid Small Modular Reactor–Solid Oxide Fuel Cell system for low-carbon hydrogen production
- **A Novel Deep-Learning Model for Accurate Solar Energy Forecast in Future Smart Grids** 2024–2026 [USD 50,000]
The Research Council of Oman (TRC) | Role: Co-Principal Investigator
 - Two-year competitive grant (OMR 19,400 ~ USD 50,000); approved 2023, active 2024–2026; secured while at A’Sharqiyah University; developed deep learning architectures for short-term solar irradiance and power forecasting
- **IoT-Based Remote Patient Monitoring Using Wireless Sensor Networks** 2022 [USD 13,000]
A’Sharqiyah University SEED Research Fund | Role: Co-Principal Investigator
 - Co-designed and prototyped low-power IoT sensor nodes for continuous remote health monitoring in rural Oman

M.Tech research fellowship (USD 43,000, DRDO, India, 2012–2013) is listed under Education. Cumulative career funding totals USD 134,000.

Springer International Publishing.

POSTGRADUATE SUPERVISION

Supervised 25+ MSc and undergraduate thesis projects across renewable energy and electrical engineering. Selected projects:

- **Muscat University** 2023 – Present
MSc Renewable Energy & B.Eng. Energy Engineering Muscat, Sultanate of Oman
 - **Solar-Powered Smart Greenhouse**
 - **Integration of Solar Gel Ponds for Sustainable Energy in Reverse Osmosis Desalination**
 - **Optimization of Energy Storage Systems for Grid-Connected Solar PV Using MATLAB Simulink**
 - **Techno-Economic Feasibility of Hybrid Solar-Wind Energy Systems for Remote Areas in Oman**
 - **Enhancing the Efficiency of Photovoltaic Systems in Oman Using Active Water Cooling: An Experimental Study**
 - **Software-Based Analysis and Optimization of PV/Battery Energy Management Systems for Oman**
 - **Optimization of Energy Efficiency in Green Hydrogen-Powered Desalination Systems**
 - **Comparative Life Cycle Assessment of Selected Renewable Energy Technologies**
 - **Environmental Impact Assessment of Renewable Energy Projects**
 - **Energy Storage Optimization for Renewables**
 - **Feasibility Study of Implementing a Hybrid Wind and Solar Energy System in the Namir Area**
 - **Innovative Approaches to Solar Desalination for Sustainable Water Supply in Oman**
- **A'Sharqiyah University** 2015 – 2023
Lecturer, Electrical and Computer Engineering Ibra, Sultanate of Oman
 - Supervised approximately 13 undergraduate final year projects across renewable energy, electrical circuits, control systems, and electronics

TEACHING EXPERIENCE

- **Muscat University** 2023 – Present
Assistant Professor in Renewable Energy Muscat, Sultanate of Oman
 - **Courses taught:** Energy Technologies and Systems; Energy Supply and Delivery; Electrical and Electronics 1 & 2; Introduction to Renewable Energy (MSc); Engineering Mathematics; Introduction to Energy Engineering; Energy Management
- **A'Sharqiyah University** 2015 – 2023
Lecturer, Electrical and Computer Engineering Ibra, Sultanate of Oman
 - **Courses taught:** Solar Energy/Renewable Energy; Electrical Circuits I & II; Control Systems; Electronics I & II; Electromagnetic Fields; Instrumentation & Measurements; Digital Systems; Computer Applications

AWARDS & HONOURS

- **Featured Speaker, World Engineering Day 2026**, UNESCO / World Federation of Engineering Organisations (WFEO) 2026
- **Quality Audit Appreciation Award**, A'Sharqiyah University — contribution to B.Eng. Electrical Engineering (2021) and BSc Cybersecurity (2022) programme development 2021 – 2022
- **Best Teacher Award**, College of Engineering, A'Sharqiyah University, Sultanate of Oman 2019
- **Active Researcher Award**, A'Sharqiyah University, Sultanate of Oman 2019
- **Invited Keynote Speaker**, Nizwa Institute of Technology, Sultanate of Oman — role of academic advisor: student challenges and counselling 2019
- **Invited Keynote Speaker**, Walajat Institute of Technology, Sultanate of Oman — PV degradation rates in Oman 2018
- **Conference Travel Grants (total USD 6,100)**, IEEE, IET, and Birla Institute — awarded across 6 international conferences 2013 – 2019
- **Best Support Technologist Award**, Technosignage (formerly Bayanat Technology), Muscat, Sultanate of Oman 2015
- **Top Three Graduate Award, M.Tech**, SRM University, Chennai, India 2013

PROFESSIONAL MEMBERSHIPS & CERTIFICATIONS

- **Chartered Engineer (CEng)**, Engineering Council UK / Institution of Engineering and Technology (IET) 2020 – Present
- **International Professional Engineer (IntPE)**, Engineers Australia / International Engineering Alliance (IEA) 2022 – Present
- **IET Approved Mentor**, Institution of Engineering and Technology (IET), UK 2022 – Present
- **Member, IEEE Power and Energy Society (IEEE PES)**, Institute of Electrical and Electronics Engineers 2018 – Present
- **Member, IET EMEA Local Networks**, Institution of Engineering and Technology (IET) 2021 – Present
- **IET Young Professional Buddy**, Institution of Engineering and Technology (IET), UK 2017 – Present

EDITORIAL & REVIEW SERVICE

- **Research Grant Reviewer**, The Research Council of Oman (TRC) 2021 – Present
- **Peer Reviewer** — Elsevier, Energy Conversion and Management; Energy Conversion and Management: X; Electric Power Systems Research 2025 – 2026
- **Peer Reviewer** — Springer Nature, Wiley & Others, Scientific Reports; Next Materials; International Journal of Energy Research; JMIR Publications 2025 – 2026
- **Peer Reviewer** — IET Journals, IET Renewable Power Generation; IET Circuits, Devices & Systems 2018 – Present
- **Peer Reviewer** — ICE Journals, Institution of Civil Engineers (ICE) Energy Journals 2019 – Present
- **Peer Reviewer** — IJCDs, International Journal of Computing and Digital Systems 2018 – Present
- **Technical Programme Reviewer**, SUSTAIN 2026 — IEEE International Conference on Sustainability (4 papers) 2026
- **External Examiner (Undergraduate & Postgraduate)**, Sultan Qaboos University (SQU); University of Buraimi, Sultanate of Oman 2023 – Present
